Sadiyo Olow			I am moving to Seattle on August and I am planning on applying for jobs relating to immigration work.	I am currently studying Spanish in hopes of enriching my resume and also because I have always been interested in acquiring foreign languages currently speak Somali, English, and Bahasa. Spanish would be a great addition.	Western Community Action: Early Head Start program	I did a research on the correlation between depression and self-esteem using responses from SMSU students. This was a research that was part of a course I took.	
Jessica Linder		I hope to go on to graduate school, probably get a master's degree. I don't really know what I want to do, but I will be going to graduate school within the next few years at least.	I am going to apply for a full time job near where I live at HSI.	I am currently in my second year of learning Spanish. I plan to continue learning Spanish, so that I have another language as a skill. Knowing another language looks good on a resume.	Behavioral Care Specialists, Inc. based in Sioux Falls South Dakota, at a location in Slayton, MN.	I was a Resident Assistant for two years here at SMSU.

<p>Kelsey Hennen</p>		<p>I applied to 5 graduate schools- St. Catherine's, St. Scholastica, University of Minnesota (cities location), University of Minnesota (Rochester location), and University of South Dakota. I was accepted and will be attending University of Minnesota (cities location) beginning in September for Occupational Therapy Graduate School. I have not received financial support but will be receiving more information regarding school the beginning of May.</p>			<p>Minneota Manor (Nursing Home) AND Avera Hospital/Clinic in Marshall</p> <p>(2 internships)</p>	<p>I played college volleyball my freshman year at SMSU.</p>

Alexandra Pantze		<p>Applied to 3 graduate schools: Minnesota State Mankato, University of Akron (Ohio), and Missouri State University. I was accepted to Missouri State University where I will be attending in the fall working towards a master's degree in Industrial Organizational Psychology. I have been fortunate enough to have gotten a research assistantship (RA) working underneath the IO program director and assisting in the research of retention rates with Latino and Hispanic students at the University. I have been named the recipient of the Fall 2015 class "Midwest Student Exchange Program Award", and selected based on high academic standing and achievement during my undergraduate degree. This is a two year financial award.</p>	<p>I hope to apply for a full time job upon competition of my master's program.</p>	<p>Into my seventh year of the Spanish language, during one of my summers in graduate school I hope to take a month abroad through one of these companies, both to increase my language speaking ability, as well as add to my resume and experiences before getting settled on a full time position.</p>	<p>I did my complete internship during two summer's at home working for Ruth's House, a women's shelter serving women and families fleeing domestic, alcohol, substance and various other forms of abuse. Though this has nothing to do directly with my intended future career, I believe this experience helped show that I can work with a diverse group of people.</p>		<p>When on campus here at SMSU, I found myself being very involved in co-curricular activities. I was involved in Psychology Club, Psi Chi (president), volunteered at the New Horizons Crisis Center, and attended Fellowship of Christian Athletes (FCA) weekly. Through a number of these clubs on campus, I was able to get involved in volunteering for a number of key organizations in the community of Marshall, including participating in Coats for Kids, and serving food to others at Ruby's Pantry the 1st Thursdays of the Month. Through involvement with Psi Chi, I was able to attend two research conferences: this upcoming spring in Chicago MPA, as well as the Minnesota Undergraduate Research Conference last spring in Minneapolis. Both of these conferences extended my knowledge of research and prepared me for the graduate process. Throughout all 4 years of my undergraduate study, I was a member of the Women's soccer team here on campus. Additionally, I found employment serving as a nanny to a family in town here for the past two years, while also working at REM Southwest Services working closely alongside individuals with development and other forms of disability.</p>
