

From Outline to Notecards

"Students may deliver all speeches without the use of notes. If notes are used, they may not exceed two 3x5 note cards, written on one side only. One of the cards may contain only bibliographic documentation (NOT supporting material) necessary for source citation. The other card may not exceed 35 words. Failure to follow these guidelines will warrant lowering the speech grade by at least one full letter grade. This requirement applies to individual and group presentations."

Alright, so how do we do that?

Rules to Notecard by:

- 1) Stick to outline
- 2) Use key words
- 3) Know your intro/conclusion
- 4) Number sources with 2nd notecard
- 5) Know what you are talking about!
