

IMPORTANT IMMUNIZATION INFORMATION SMSU Health Services Policy

Page two is an immunization form which indicates the **required immunizations** to remain enrolled at Southwest Minnesota State University. Please note that the first two immunizations listed (Td and MMR) are **required**. The Td must be received within the last **10 years**. The MMR must have been given **after** you were 12 months old.

Although the immunizations are available at a local clinic in Marshall, you may want to get the vaccines in your home country before coming to SMSU. The cost of both of the required immunizations at our local clinic is over \$100.00. If you do not have the immunization, you will be required to get them (at a cost of over \$100) to remain in legal F-1 student status.
