**Courses:** List all the courses that are required for completion of your major. Your major should be developed in consultation with your advisory committee. Your advisory committee is formed by asking one faculty member from each of the disciplines represented in your IIM major to serve on your committee. Your major must include at least 36 credits from at least two programs. These 36 credits must contain no more than 3 credits of Independent Study courses and no more than 3 credits of internship. At least 18 credits must be at the 300 or 400 level.

Additional Requirements: List any additional requirements for your IIM. For example, certain departments may require a minimum grade point average or a minimum grade achieved in a particular class.

**Senior Project:** Your IIM must include a scholarly or creative component developed with the help of your advisory committee. Describe the project you will complete to meet this requirement.

**Purpose:** Describe the purpose of your IIM. What is the unifying theme? Why do you wish to pursue this major? How will this major help you to achieve your career goals? Why will none of the established academic majors at SMSU satisfy your needs?

**Approval:** Your Individualized Interdisciplinary Major must be approved by your academic advisor, each member of your advisory committee, each department which has courses involved in your major, the Curriculum Committee, and the Academic Dean. Obtain the following, signatures to verify that your IIM has been approved.
