

## College Now 504/IEP Form

Students with IEP or 504 plans who are requesting accommodations for SMSU College Now courses, will submit a copy of this cover sheet along with the required documents to the College Now Office. Please note that not all accommodations included on 504/IEPs are appropriate and approved for SMSU college courses. If a student wants or requires accommodations not approved by SMSU, they may be allowed to take it for high school credit only and should check with their high school administration. SMSU will make every attempt to make reasonable accommodations and provide assistance to our students. Any approved accommodations will include all current and future SMSU concurrent enrollment courses a student may take. If additional accommodations are requested for future courses, an updated request form will need to be completed. Both students and teachers will receive a copy of the outcome of this request. We strongly suggest students schedule time directly with high school teachers to review together. Contact the College Now Office with questions.
