

SMSU Mentoring School Districts

As of May, 2017

We offer a variety of school districts throughout the State of Minnesota for our student teachers to teach in. SMSU and the individual districts must have a signed contract in order to place student teachers. This can take months to secure as we must work with the school boards to finalize the agreement. Just because we have a contract with a certain district doesn't mean they have a teacher willing to host a student teacher in the grade level required. Each semester presents a 'BIG PUZZLE' that we must solve, to match each student teacher with a willing mentor teacher/classroom so everyone meets the licensure requirements for the State of Minnesota.
