

Assessment Academy Agenda

Wednesday November 1, 2017

4:00 PM -5:00 PM

BA 524

1. Check-ins – Scott. Another grandbaby was born...Kit. Dwight. Had a great Halloween and weekend. He took his Little Buddies to the museum, library, and ResHalloween. Betsy. The countdown has started...after the NACEP conference she was invited to present a workshop. Pam. Has been learning about the migration to the new library system. Jeff. His youngest daughter has qualified to compete for Marshall at their high school section meet...and a collaborator from the University of Houston is sending saliva collection tubes to SMSU.
2. Review minutes October 18, 2017 – Jeff Bell
3. Debrief Midpoint Roundtable – Notes: Project Version 5.0 update due November 12th. Student affairs is looking good. Progress was made on gap analysis. Program status letters were reviewed. Processes were discussed regarding future assessment reports. A Qualtrics survey will be sent out to programs to help determine where programs are actually assessing the LEP outcomes. A good presentation on the difference between Assessment OF Learning versus Assessment FOR Learning.
4. Update PASL (Pam/Betsy/Ben) – A recommendation that the updated PASL can be included as a session at the Professional Development Day. Process- AAT originates the document, CIA vets, roll-out at January Professional Development Day presented by CIA. Notes: The PASL does not explicitly state that the plan should include assessment of programmatic SLOs and LEP SLOs. Language should be included in the PASL to include SLOs for Programmatic Goals and LEP Goals in each course's syllabus. Also, language should be added to syllabi to state if any artifacts from that course will be used for assessment and if so, which SLOs. A discussion over whether key performance indicators such as "students will: " statements.
5. Describe Flowchart- since this is an educative document that will be presented, the acronyms should be spelled out. This currently is an internal document for planning and guiding the assurance argument. Eventually this will be an external document used for evidence in the assurance argument.
