Undergraduate Projects as a High-Impact Teaching Technique

Presented by:

Jay Brown, Pat Brace, Corey Butler, Tony Greenfield, Sheila Tabaka, Will Thomas, and Marianne Zarzana

According to the Association of American Colleges and Universities (AAC&U), undergraduate research is a high-impact educational practice beneficial for college students. Faculty at SMSU mentor students on projects presented at the Undergraduate Research Conference. Faculty from several departments will discuss the impact the projects have on their students. Jay Brown will share demographic, retention, and academic performance statics gathered from his undergraduate research group from 1997-present at the end of the presentation.

Thursday, November 7th

Noon – 1:15 pm, ST 218

All SMSU Faculty and Staff are invited to attend.

Light refreshments & snacks will be provided by the CIA Committee
