SMSU Faculty & Staff,

Our current plans are to have the Technology Resource Center open beginning at 8:00 a.m. on Saturday morning to support any equipment distribution, or other unique set-up needs and advice, for those employees that do not yet have their necessary equipment by the end-of-day today.

We ask that persons call at 507.537.6111 to schedule a time for Saturday.

More details will be sent as needed.

Please be assured that we are striving to meet all faculty/staff needs by the end-of-day but we realize it may not be possible.

Thanks

Dan Baun
Chief Information Officer

P.S.

Stay tuned for details regarding technology support needs for next week.
