Dear Students, Faculty and Staff:

Commencement is a milestone moment that celebrates the hard work and accomplishments of our students. It is a time for students, families and all of us to recognize success!

Because of the need to ensure health and safety our spring campus commencement ceremony scheduled for May 9, 2020 has been suspended. We are disappointed that we will not be able to proceed with our typical ceremonies and celebration in May. However, we are searching for options to ensure we can recognize this important moment.

We will keep everyone posted as we determine the best path to move forward. For up to date information please check the website at www.smsu.edu/commencement or email your questions to commencement@smsu.edu . Thank you for your patience as we navigate these unprecedented times together.

Sincerely,

Kumara Jayasuriya

President
