June 13 - 23, 2022

July 11 - 21, 2022

**Come join some of the
leading Charter School
experts from Minnesota!**

Space is limited, so don't delay!

SMSU Quality Assurance

SMSU has been a proven leader in providing innovative and high quality programs through our very successful Learning Community model. What makes us unique is that we have created a program specifically for you, providing you with all the tools and materials necessary to develop your leadership skills.

Leadership Emphasis

Participants in this program will work with identified leaders in charter schools in Minnesota. The program launches each summer with a set of courses that will lay a solid foundation for the three semester program.

Mentorship Support

One of the many unique features of this program is the integration of a mentor assigned to each participant. This mentor will be a highly qualified charter school leader that will provide valuable support, guidance, and feedback.

Portfolio Development

Students will develop a professional portfolio that will highlight how each of the standards of expected responsibilities connected to being a leader in a charter school are met. The mentor will become an integral component to helping the leader candidate gain exposure and experience in meeting these expectations.
