Quarterly Meeting
Southwest Minnesota GIS Users Group

When: April 15, 2009 at 10:00 AM

Where: Lyon County Public Works Building
                 504 Fairgrounds Road
                 Marshall, MN 56258

Agenda:
- Introductions

- Discussion Items – Share your News

- Presentations

    o GeoMoose 2.0 – Brian Fischer, Houston Engineering, Inc.

      "What's New in GeoMoose?"

      GeoMoose is a Web client JavaScript framework for displaying GIS data. The GeoMoose project is client-side code that uses a variety of JavaScript, XML, and DHTML technologies to interface with other web-clients. The primary target of Moose is for integration with the University of Minnesota's MapServer.

      The developers have been busy working on a new version of GeoMoose, which is going to be released as GeoMoose 2.0. This presentation will discuss changes and demonstrate the new features. New features include integration with OpenLayers, support for tiled images and a data editor.

    o Pictometry Overview – Dean Larson, Pictometry International, Inc.

      An update on Oblique Imagery, LIDAR and other Pictometry products

- Plan the next meeting

    o Date

    o Presentation Topic(s)

Anyone with an interest in GIS is invited to attend
